Professional Summary

Results-driven AI/ML Engineer with 2+ years of experience designing, developing, and deploying machine learning and Generative AI solutions using Python and cloud services. Skilled in building LLM-powered pipelines, scalable ML APIs, and automation workflows leveraging FastAPI, Docker, and Kubernetes on AWS. Adept at transforming data into actionable insights, driving efficiency, and delivering stakeholder value in production environments.

Technical Skills

- **Programming Languages:**
Python, Shell Scripting, Bash
- **Machine Learning & Generative AI:**
Supervised Learning, Clustering, Recommendation Systems, Reinforcement Learning, MLOps, GPT-4, Claude, LLaMA 3, RAG, LangChain, Whisper, Stable Diffusion, GANs
- **Data & Visualization:**
Pandas, NumPy, PySpark, SQL (MySQL, PostgreSQL), NoSQL (MongoDB), Matplotlib, Seaborn
- **Cloud & MLOps:**
AWS (SageMaker, EC2, S3, Glue, RDS, DynamoDB, Redshift), Azure, CI/CD, Git, Jenkins, MLflow, Docker, Kubernetes, Microservices
- **Frameworks & Tools:**
TensorFlow, PyTorch, scikit-learn, spaCy, NLTK, OpenCV, Django, Flask, FastAPI, OCR

Professional Experience

- **Software Engineer | Recrosoft Technologies Pvt Ltd | Sep 2024 – Feb 2025**
- Implemented Generative AI models for automated question generation and content delivery, reducing manual effort by 40%.
- Deployed ML pipelines on AWS SageMaker, integrated with Glue and Redshift for production data workflows.
- Managed Kubernetes clusters, ensuring high availability and pipeline reliability using CloudWatch monitoring.
- Developed Python-based Glue scripts for automated data validation, improving pipeline consistency.

- **Software Developer | Scintillate Alliance Pvt Ltd | Nov 2023 – Mar 2024**
 - Developed deep learning solutions for shape detection using OpenCV, achieving 100% accuracy.
 - Executed OCR pipelines with CUDA GPU acceleration, improving data extraction accuracy to 99%.
 - Implemented multithreading to optimize processing time by 30% for data pipelines.
 - Built ETL pipelines for data extraction, cleaning, and transformation, reducing manual preprocessing by 90%.
- **Artificial Intelligence Trainee | Techasoft Pvt Ltd | Mar 2022 – May 2023**
 - Applied NLP techniques for text preprocessing and keyword extraction with 95% accuracy.
 - Built computer vision models using YOLO for object recognition, achieving a 98% detection rate.
 - Deployed ML models with Flask and FastAPI using microservices, enabling scalable API serving.
 - Automated CI/CD workflows using Jenkins and Kubernetes on AWS, reducing deployment downtime by 25%.
 - Developed Django rest-Apis and integrated with user facing elements such as reactjs

Education

- **Master of Computer Applications (MCA) | Visvesvaraya Technological University | 2019 – 2021**
- **Bachelor of Science in Computer Science | Bangalore University | 2015 – 2018**
